PROFESSIONAL SUMMARY

Innovative AI Developer with hands-on experience, specializing in building and deploying full-stack, AI-driven web applications. Proficient in Python, Flask, and the integration of large language models. Eager to apply a strong foundation in AI frameworks and backend development to solve challenging problems and contribute to a forward-thinking team.

SKILLS

Python, Flask, LangChain, Generative AI, Large Language Models (LLMs), Prompt Engineering, Google Gemini API, Git, GitHub, Docker

EXPERIENCE

Euron

06/2025-08/2025

AI Developer Intern

- Developed and deployed a full-stack AI web application, 'CareReply', using Python, Flask, and the Google Gemini API to improve patient communication for healthcare staff.
- Reduced potential staff response time by creating an intuitive single-page interface with HTML, CSS, and JavaScript that allowed for quick review, editing, and copying of AI-generated text.
- Containerized the application using Docker and configured it for cloud deployment on Render with Gunicorn, demonstrating knowledge of modern DevOps practices.

PROJECTS

SIET Career Guider

07/2025-07/2025

- Developed a comprehensive, AI-powered career guidance platform using Streamlit, LangChain, and the Google Gemini API to provide students with personalized career analysis, including market trends and learning roadmaps.
- Engineered a Retrieval Augmented Generation (RAG)-powered chatbot with a FAISS vector store, enabling users to have interactive, contextual conversations about their career paths based on AI-generated reports.

Care Reply - AI Medical Bot

07/2025-07/2025

- Architected and built an end-to-end medical chatbot using a Retrieval-Augmented Generation (RAG) pipeline to provide accurate answers from a specialized knowledge base of PDF documents.
- Engineered the backend using Flask and LangChain, integrating Google Gemini Pro for generation and Pinecone as a serverless vector database for efficient, context-aware information retrieval.

ACHIEVEMENTS & CERTIFICATIONS

Python Beginner to Advance

Master Statistics

EDUCATION

Bachelor of Technology

08/2023 - Present

Shambhunath Institute Of Engineering & Technology
