

Aditya Rai

AI / ML Developer | Data Science & GenAI | LLM Application Builder
+91-7355419508 | adityarai29052005@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [YouTube](#)

PROFESSIONAL SUMMARY

AI/ML Developer and Data Science enthusiast with hands-on experience building end-to-end intelligent systems powered by Large Language Models, RAG pipelines, and Generative AI. Skilled in designing LLM-based applications, multi-agent pipelines, and deploying AI solutions with Python and modern API frameworks. Passionate about applying AI to solve real-world problems across healthcare, security, and career intelligence domains.

SKILLS

AI / ML: Machine Learning, Deep Learning, NLP, Agentic AI

GenAI & LLMs: LangChain, LangGraph, RAG, Prompt Engineering, FAISS, Pinecone, HuggingFace, Claude (Anthropic)

Frameworks: Flask, FastAPI, Streamlit

Languages & Tools: Python, Git, GitHub, Docker

EXPERIENCE

AI Developer Intern — Euron (Engagesphere Technology Pvt. Ltd.)

Jun 2025 – Aug 2025

Bengaluru, Karnataka, India

- Built 'CareReply', a full-stack AI web application using Python, Flask, and Google Gemini API to generate empathetic, professional patient communication for healthcare staff.
- Designed precision prompt engineering to ensure AI-generated responses avoided medical advice while maintaining clinical tone and accuracy.
- Delivered an intuitive single-page UI with HTML/CSS/JavaScript enabling quick review, editing, and one-click copying of AI-generated messages.

Marketing Intern — Euron (Engagesphere Technology Pvt. Ltd.)

Mar 2026 – Present

Bengaluru, Karnataka, India (Remote)

- Executing digital and social media campaigns; creating data-driven content for LinkedIn and Instagram to drive audience engagement and brand awareness.
- Conducting market research on industry trends and competitive positioning; supporting lead generation via email and WhatsApp outreach initiatives.

PROJECTS

National Security Shield | [GitHub](#)

May 2026

FastAPI, LangGraph, Azure AI Search, Azure Video Indexer, HuggingFace, Groq Llama-3.3-70B, Python

- Built an AI-powered video threat analysis platform processing 5+ threat categories (terrorism, misinformation, hate speech, espionage, cyber threats) from YouTube videos using speech-to-text, OCR, and multilingual translation.
- Integrated Azure AI Search with HuggingFace embeddings and Groq Llama-3.3-70B to generate structured intelligence reports with ~85% retrieval accuracy from indexed video content.
- Implemented a caching layer that reduced redundant video processing by ~60%, improving API response time significantly.

SIET Career Guider | [GitHub](#)

Jul 2025

Streamlit, LangChain, Google Gemini API, FAISS, Python

- Developed an AI career guidance platform serving personalized roadmaps across 10+ career domains with market trend analysis for students.
- Built a RAG-powered chatbot using FAISS vector store, reducing generic responses by grounding all answers in AI-generated career reports.

Care Reply — AI Medical Bot | [GitHub](#)

Jul 2025

Flask, LangChain, Google Gemini Pro, Pinecone, Python

- Architected an end-to-end medical Q&A chatbot using RAG over a PDF knowledge base, achieving context-aware responses across 100+ medical topics.
- Integrated Pinecone serverless vector DB for sub-second semantic search; deployed on Render via Docker, handling concurrent user sessions.

ACHIEVEMENTS & CERTIFICATIONS

- Ranked 4th — Gen-AI Hackathon, Prayagraj**
- Generative AI with NLP, Agentic AI and Fine Tuning | [Certificate](#)
- Full Stack Data Science | [Certificate](#)
- Master Statistics | [Certificate](#)

EDUCATION

B.Tech — Computer Science & Engineering
Shambhunath Institute of Engineering & Technology, Prayagraj, Uttar Pradesh

Aug 2023 – Aug 2027
